SECTION1 - WHATWASROXY?

Roxy era un brand di sigarette nato nel '51 da un'idea di Theodorus Niemeijer. Nel corso dei suoi 50 anni di attività dimostrò con le proprie campagne e i propri ambassador un'attitude irriverente e mondana, distinguendosi da altri brand.

Wow, this place is insane! The view from the rooftop is unbelievable. I can't believe we actually got in!

Right?! I was expecting some kind of boring, VIP-only vibe, but this is next level. The energy is electric.

Totally. And did you see the DJ? I thought we were at a music festival, not a party. He's killing it!

I know, the crowd is going wild. I can barely hear myself think, but I love it! Let's grab another drink, what do you say?

Definitely. The cocktails are on fire tonight. Did you try the signature one? It's got this crazy mix of flavors—lemon, mint, and... is that ginger?

I did, and it's like a party in my mouth. Speaking of, I'm seeing people in gold-plated suits. What's going on here? This is some serious fashion game!

laughs I know, right? It's like a runway show mixed with a club. I mean, look at that guy over there—he's wearing sunglasses inside. Classic move.

Haha, classic. This whole thing feels like a scene out of a movie. I can't get enough of it. It's one of those nights you'll tell stories about for years.

Exactly! I can already hear us talking about this when we're old and gray. "Remember the exclusive party with the crazy rooftop and the insane beats?" And we'll probably still be wearing the same outfits.

Right! A night like this, you have to live in the moment. Let's dance before we miss out!

Yes! Let's go—this is our night.

VEEL TEER EN NICOTINE?

TEER 10MG NICOTINE 10MG

LA SCIENZA PARLA CHIARO.

19

I primi studi sui danni causati dalle sigarette vennero svolti negli anni cinquanta, in particolare **Richard Doll** fu il primo a pubblicare uno studio "malattia aumenti con la quantità di tabacco fumato", inoltre venne compreso come la nicotina non solo causi dipendenza ma abbia un diretto rapporto con lo sviluppo di tumori.
